

# ARSITEKTUR POST-MODERN SEBAGAI EKSPRESI KOMPLEKSITAS BUDAYA

Marcus Gartiva <sup>1</sup>

**Abstract:** *Modernism in art and architecture was a reaction of the classic, especially European classic. It has promised a new hope and enlightenment, in the name of functionalism and age of machine. The excess is the modernism neglected local cultural, emotional approach, heterogeneity, so the product is cubism and boring architecture. This condition forced the birth of postmodern which respect local cultural, emotional approach, heterogeneity, hybrids, in the name of complexity and contradiction which express culture complexity.*

**Key words:** *Post-modernism Architecture, expression, culture complexity.*
